May 1, 2008

I am pleased to refer Marty Mercer to your organization. Marty is an unique individual with exceptional talent. Marty provided the residents of AHEPA One Apartments with a presentation and demonstration of Health/Wellness program which included nutrition and fitness.

Marty was able to captivate the attention of our senior citizens with a educational slide presentation and actual demonstrations of safe exercise techniques.

Marty was able to connect with our non English speaking seniors with the assistance of a translator. It was a pleasure to see how Marty was able to motivate the residents and have them actively engaged in participation.

I personally would like to commend Marty for making a positive impact on our resident's lives.

We look forward to having Marty for future programs.

Peggy Howard
Service Coordinator
